NUGEN AUDIO DEALER/RESELLER PRODUCT HELPSHEET FOR WEBSHOPS, PRODUCT DISPLAYS AND PRODUCT INFORMATION

1. CHECKING AND UPDATING NUGEN AUDIO PRODUCTS

All of your product information should be regularly checked against our pricelist and the images and descriptions displayed in our webshop.

Check your displayed NUGEN products against the current pricelist for the NUGEN bundle and product line. Remove all products which are no longer available. To add new bundles or products visit our asset store to locate the product card and images.

If you, or a colleague, require access to the asset store please email jane@nugenaudio.com.

2. PRODUCT NAME CHANGES (JUNE 2018)

In June 2018 the following name changes were made. Please ensure that your product displays use the updated names.

- MasterCheck Pro was renamed MasterCheck and MasterCheck was renamed MasterCheck Legacy. MasterCheck Legacy is no longer sold, although an upgrade from MasterCheck Legacy to MasterCheck Pro is available.
- Vis LM-H was renamed Vis LM.
- Stereopack was renamed Focus.
- Stereopack Elements was renamed Focus Elements.

3. PRODUCTS NO LONGER AVAILABLE TO SELL (JUNE 2018)

The following products were removed from the product range in June 18 and should not be sold. Please ensure that they are removed from your webshop and all product literature.

- Multimonitor
- Master Pack
- Mix Tools
- Producer Pack (updated to NUGEN Producer - Sigmod was added)
- Post Pack (updated to NUGEN Post - Halo Upmix, Halo Downmix, Sigmod and Dynapt extension for LM Correct were added)
- MasterCheck Legacy
- Vis LM-H2 and LM Correct combo deal
- Halo Upmix and Halo Downmix combo deal
- Halo Upmix and Halo Downmix both with 3D Immersive Extension combo deal
- VisLM C2
- VisLM C1 to VisLM C2 upgrade

4. NEW BUNDLES AND BUNDLE CONTENT

In June 2018 our new bundle range was launched. Bundle content is summarised on the pricelist and further detail is provided on the product card.

The current bundle names are:

NUGEN Producer	NUGEN Post
Modern Mastering	Surround Suite
Focus	Loudness Toolkit
